Handwashing Investigation

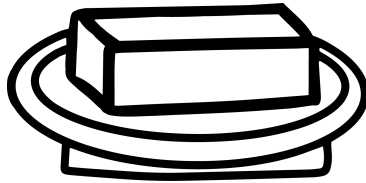

How should we wash our hands to get rid of the virus?

1. What will you use to make your hands oily, since the virus is oily?

oil

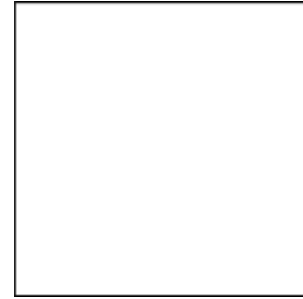

butter

lotion

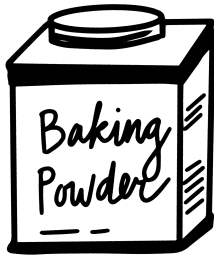

something else

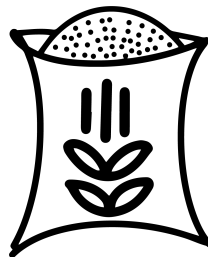

2. What will you use to make your hands messy so you can see it on your hands?

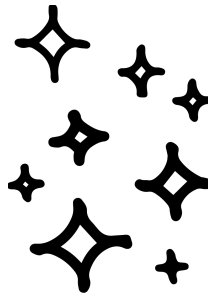

baking powder

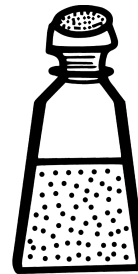

flour

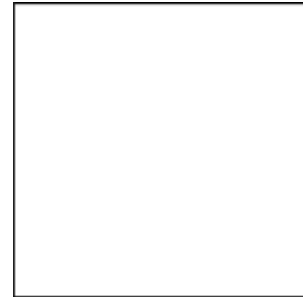

glitter

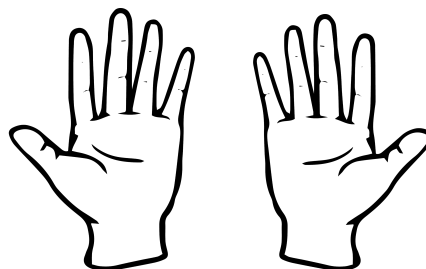

cinnamon

something else

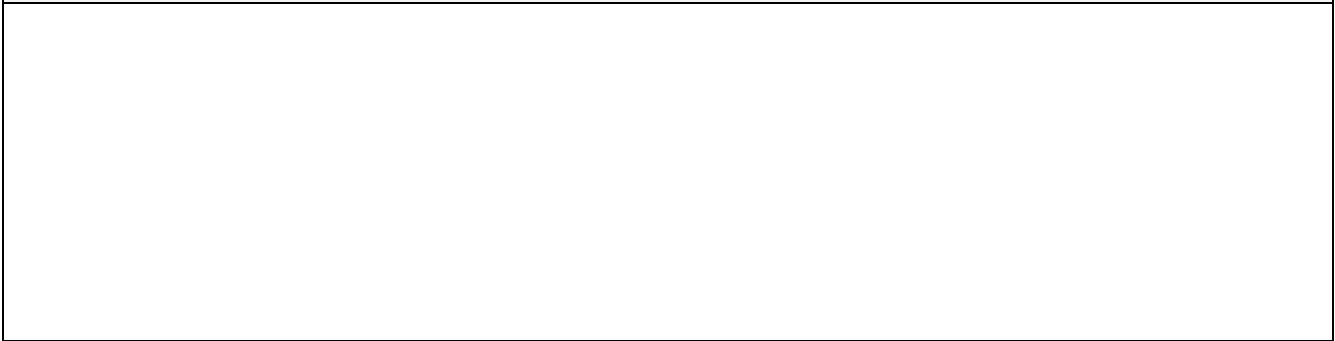

3. Get your hands oily and messy.

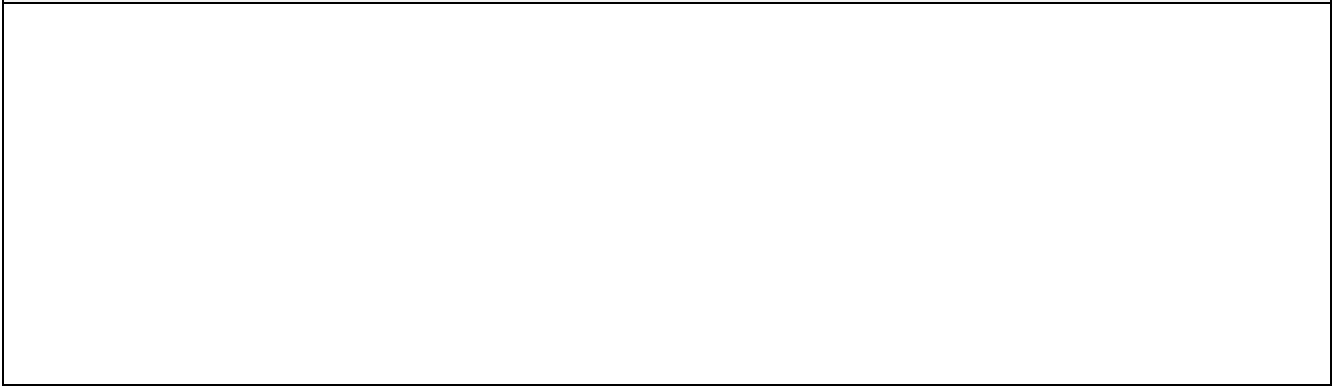

4. Wash your hands quickly with only water.

Draw, take a picture, or describe what your hands looked like after this washing.

5. Wash your hands to get rid of all of the mess.

Draw, take a picture, or describe what your hands looked like after this washing.

Describe in words or pictures what you did to wash your hands.
