Investigating Masks

Does a mask block what comes out of our mouths and noses?

1. Tear 5 small bits of paper.

2. Put the five papers in front of you.

3. Without your mask on, try blowing to move the papers. Count how many moved. Write that number under Try #1.

Mask? NO. How many papers moved?		
Try #1	Try #2	Try #3

4. Put on your mask or face covering.

5. With your mask on, try blowing to move the papers. Count how many moved. Write that number under Try #1.

Mask? YES. How many papers moved?		
Try #1	Try #2	Try #3

6. Reset the papers and try two more times without your mask. Then try two more times with your mask. Count and write how many papers moved each time.

7. Did the mask block what came out of your mouth and nose? _____
